Sports Medicine

PLEASE NOTE THE FOLLOWING DIFFERENCES IN HOW THIS EVENT WILL BE RUN AT HOSA CANADA'S FALL LEADERSHIP CONFERENCE (FLC):

- 1. Written test time shortened to 40 minutes (still 50 questions) at FLC only.
- 2. Written test will take place online and be open book at FLC only.
- 3. Only the written test portion of the event will be evaluated at FLC.

PLEASE NOTE HOSA CANADA'S <u>SPRING LEADERSHIP CONFERENCE (SLC)</u> WILL BE IN-PERSON AND THIS EVENT WILL BE RUN ACCORDING TO THE GUIDELINES IN THE FOLLOWING PAGES, EXCEPT FOR THE FOLLOWING DIFFERENCE:

1. There will be a verbal announcement when there are 30 minutes and 5 minutes remaining to complete the written test at SLC.

*Please note that NO verbal announcements will be made at the International Leadership Conference (ILC).

Sports Medicine

Health Professions Event

| Eligible Divisions: Secondary & Postsecondary / Collegiate | Round 1: 50 Q test in 60 minutes | Digital Upload: NO |
|--|----------------------------------|--------------------|
| Solo Event: 1 competitor | Round 2: Skill Demonstration | |

New for 2024 - 2025

Editorial updates have been made.

Event Summary

Sports Medicine provides members with the opportunity to gain the knowledge and skills required for patient care in a sports medicine setting. This competitive event consists of two rounds. Round One is a written, multiple-choice test, and the top-scoring competitors advance to Round Two for the skills assessment. This event aims to inspire members to learn more about injury prevention, therapeutic intervention, and immediate care.

Sponsorship

HOSA-Future Health Professionals is appreciative for the sponsorship of Sports Medicine by the <u>National</u> Athletic Trainers' Association

Dress Code

Bonus points will be awarded for proper dress.

Round 1: Proper business attire, official HOSA uniform, or attire appropriate to the occupational area

Round 2: Attire appropriate to the occupational area

Competitors must provide:

| A photo ID for both rounds |
|---|
| Two #2 lead pencils (not mechanical) with eraser for the test. |
| Appropriate tape of any size, color or type Elastic wrap (used for Skill III-C) |
| Bandage scissors or athletic tape cutter |
| Thin foam pads (heel and lace pads) with skin lubricant (used for Skill III-A & B) |
| Pad for shoulder (used for Skill III-C) |
| Underwrap of any size, color or type |
| Note: It is the competitor's responsibility to know what size and type(s) of tape/elastic wrap is (are) |
| needed for each taping/wrapping skill, and to bring the appropriate materials to the event. |

General Rules

1. Competitors must be familiar with and adhere to the General Rules and Regulations

Round One Test

3. <u>Test Instructions:</u> The written test will consist of 50 multiple-choice items to be completed in a maximum of 60 minutes.

- 4. **Time Remaining Announcements:** There will be NO verbal announcements for time remaining during ILC testing. All ILC testing will be completed in the Testing Center and competitors are responsible for monitoring their own time.
- 5. Written Test Plan

The test plan for Sports Medicine is:

- Injury / Illness Prevention and Wellness Promotion 30%
- Examination, Evaluation, and Assessment 30%
- Immediate and Emergency Care 16%
- Therapeutic Intervention 16%
- Healthcare Administration and Professional Responsibilities 8%
- 6. The test score from Round One will be used to qualify the competitor for Round Two.
- 7. Sample Test Questions
 - 1. Which professional can best advise an athlete on the psychological aspects of the rehabilitation process and how to cope with an injury? (Prentice pp 15)
 - A. Sports physiologist
 - B. Sports neurologist
 - C. Sports psychologist
 - D. Sports massage therapist
 - 2. Which vitamin is essential for the metabolism of carbohydrates and some amino acids, maintenance of normal appetite and functioning of the nervous system? (France pp 96)
 - A. Ascorbic acid
 - B. Niacin
 - C. Riboflavin
 - D. Thiamine
 - 3. What is a common mechanism of injury for an MCL sprain? (Beam pp 157)
 - A. Quick deceleration, cutting, twisting, and landing movement
 - B. Abduction and lower leg rotation on a planted foot
 - C. Falling on the anterior knee while in a flexed position
 - D. Adduction and internal rotation of the knee

Round Two Skills

8. Round Two is a selected skill(s) performance. The Round Two skills approved for this event are:

| | \ / 1 | |
|------------|---|-----------------|
| Skill I: | Anatomical Landmark Identification | 7 minutes |
| Skill II: | Joint Action and Maximum Range of Motion Identifica | tion 15 minutes |
| Skill III: | Taping / Wrapping | |

A. Ankle (Inversion)
B. Achilles Tendon
C. Shoulder Spica
D. Wrist / Hand (Circular Wrist/Figure Eight)
5 minutes
5 minutes
4 minutes

NOTE: Skill II Options- This skill may use a live patient to demonstrate poses for competitors to identify. In this case, the competitor will have 15 minutes to identify 15 different numbered poses. The competitor will be responsible for telling the patient when the competitor is ready to move to the next numbered pose. Competitors may request the live patient repeat poses as often as needed during this timeframe, and poses do not need to be done in order. As an alternative to a live patient, numbered photographs of patients in varying poses may be used. Spelling counts! Competitors should come prepared for either option.

- 9. The selected skill(s) will be presented to competitors as a written scenario at the beginning of the round. The scenario will be the same for each competitor. Some scenarios may involve the combination of multiple skill sheets, in which case some elements may not be scored due either to being duplicative or not appropriate within the scenario. A sample scenario can be found https://example.com/here.
- 10. The scenario is a secret topic. Competitors MAY NOT discuss or reveal the secret topic until after the event has concluded or will face penalties per the GRRs.
- 11. Judges will provide competitors with information as the rating sheets directed. Competitors may ask questions of the judges while performing skills if the questions relate to the patient's condition. Judges will only respond if requested information is included in the scenario or judge script/rating sheet.

Final Scoring

- 12. The competitor must earn a score of 70% or higher on the combined skills of the event (excluding the test, Anatomical Landmark Identification, and Joint Action and Range of Motion Identification) to be recognized as an award winner at the ILC.
- 13. The final rank is determined by adding the Round One test score plus Round Two skill score. In case of a tie, the highest test score will be used to determine final placement.

| A. This skill enables competitors to demonstrate their knowledge of musculoskeletal anatomy. Competitors will place a small adhesive label over the specified anatomical location of a live patient. Competitors will have 15 seconds to identify each landmark requested by the judge. Landmarks may include specific boney sites, muscles (origin, insertion, belly, tendon), or ligaments. The Head Athletic Trainer (judge) will inform the competitor which 21 | | | |
| locations are to be identified, one at a time. The competitor will the have 15 seconds to place the small adhesive label on the patient ir the correct location. Competitor should verbalize when they are finished with each landmark so the judge can move on to the next one. The timekeeper will stop competitor once 15 seconds has elapsed, so judge can verbalize next landmark. | | | |
